

Jiahui Huang

j346huan@uwaterloo.ca | j346huan.github.io

Education

PhD in Pure Mathematics University of Waterloo, Canada Supervisor: Matthew Satriano	Sept 2023 – present
Master in Mathematics ETH Zürich, Switzerland Supervisors: Arkadij Bojko, Rahul Pandharipande	Sept 2021 – April 2023
Bachelor in Pure Mathematics University of Waterloo, Canada	Sept 2017 – June 2021

Publications and Preprints

<i>The dimension threshold for Batyrev's non-negativity conjecture on stringy Hodge numbers.</i> Jiahui Huang, Matthew Satriano. <i>Arxiv preprint.</i>	2026
<i>A cohomological interpretation for stringy Hodge numbers.</i> Jiahui Huang, Matthew Satriano, Jeremy Usatine. <i>Arxiv preprint.</i>	2026
<i>Contact loci of semihomogeneous singularities.</i> Eduardo de Lorenzo Poza, Jiahui Huang. <i>Arxiv preprint.</i>	2025
<i>Equivariant Segre and Verlinde invariants for Quot schemes.</i> Arkadij Bojko, Jiahui Huang. <i>Moduli</i> , 2 e14.	2025
<i>What fraction of an S_n-orbit can lie on a hyperplane?</i> Jiahui Huang, David McKinnon, and Matthew Satriano. <i>Linear Algebra and Its Applications</i> , 613C pp. 1-23.	2021

Selected Awards

PMATH Outstanding Teaching Assistant Award	2025
Women in Math Mentorship Award \$3000 <i>This award recognizes the commitment invested in helping undergraduate students who are women or gender minorities to develop insight and skills in Mathematics, valued at \$1000 each.</i>	2024 – 2026
Undergraduate Research Assistanceship <i>This award provides research experience that nurtures an interest in research careers and mathematics experience with financial support during a full-time, on-campus position, totaling \$12000.</i>	2019, 2020
President's Scholarship \$2000	2018
J.D. Kalbfleisch Scholarship for International Students \$15750 <i>Several awards, valued at \$1750 each, are provided across undergraduate study.</i>	2017 – 2021

Teaching

MATH 127 Calculus for Sciences	2025
--------------------------------	------

Talks

<i>Contact Loci of Semihomogeneous Singularities.</i> Florida State University	2025
<i>Arc-Floor conjecture for isolated homogeneous singularities.</i> Ontario Graduate Mathematics Conference, Waterloo	2024
<i>Arc-Floor conjecture for double point singularities.</i> Canadian Mathematical Society Summer Meeting, Saskatoon.	2024

<i>Equivariant Segre and Verlinde invariants for Quot schemes.</i>	2023
Algebraic geometry and moduli seminar, ETH Zürich	

Conference Activities

The 5th National Algebraic Geometry Conference, University of Peking.	2026
Chicago-Tokyo Algebraic Geometry Workshop, University of Illinois Chicago.	2026
Singularities in Algebraic Geometry Spring School, University of Rennes.	2025
Ontario Graduate Mathematics Conference, University of Waterloo.	2024
Canadian Mathematical Society Summer Meeting, University of Saskatchewan.	2024
Equivariant Methods in Geometry, Cambridge University.	2024
Algebraic Geometry Summer School, Fudan University.	2023
Algebraic Geometry Summer School, Fudan University.	2021

Other activities

Volunteer for Graduate Student Association.	2024-2026
Volunteer for CEMC contest.	2025-2026
